

What time is it? DIY clock

Materials needed:

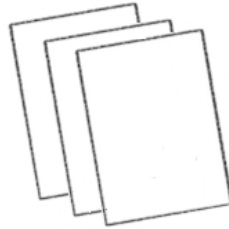

Remember to use the scissors
with your parents! 😊

Paper plate

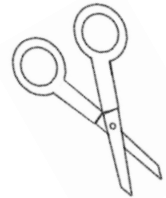

Colouring
materials

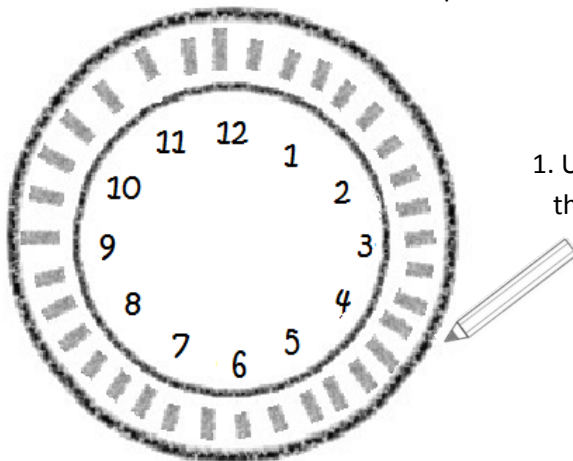

Construction
Paper

Paper
fastener

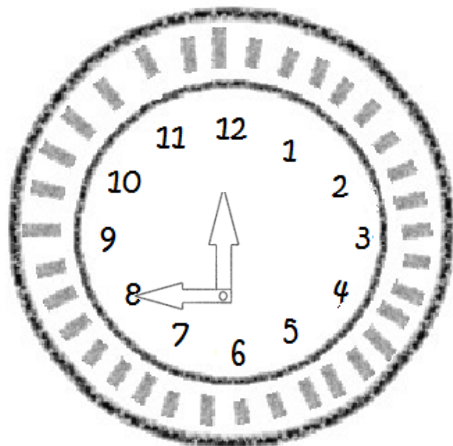

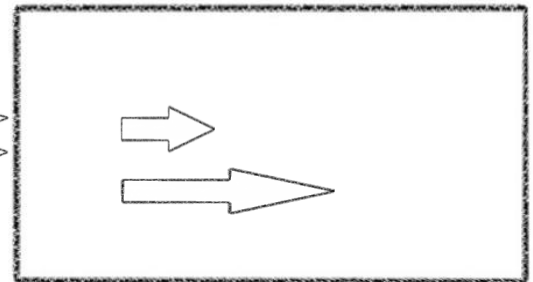

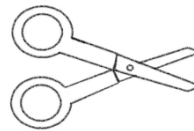

Scissors

1. Using the colouring materials, draw the face of the clock on the paper plate and decorate the plate in any way you'd like.

2. Mark out the hour hand and minute hand on paper and cut them out.

Decorate them in any way you'd like.

3. Secure the hour and minute hand using a paper fastener.

(Tip: If the fastener does not fit well, use a pen knife to create a small slit before slipping the fastener in.)

And there! You are ready to play! 😊
