

Outdoor Bubble Fun!

Ingredients/materials needed:

Dish washing soap – 100 ml

Water – 100 ml

Glycerine – 45 ml

Widely available in baking shops and pharmacies
(Alternative names: Glycerol or glycerin)

Desired formula for bubbles would vary along with the brands of dish washing soap used. Have fun experimenting! 😊

Pipe cleaners – To make the bubble wands
(Alternatively, you may consider using other materials such as metal wires)

Any desired container

Directions:

For the bubble:

1. Mix the 3 solutions into a desired container gently. Be careful not to create bubbles in the solution.
2. Let the solution sit overnight for optimal results.

For the wand:

Form any shapes you would like with the wires/pipe cleaners. Remember to leave a substantial length on the wire to form the handle of the wand. 😊
